Portfolio – Cynthia Uwineza

About Me

I am **Cynthia Uwineza**, a motivated **Computer Systems & Architecture student** from Rwanda, with solid skills in **C, Python, Web Development, and Embedded Systems**. I have hands-on experience with **Visual Studio, GitHub, and system-based projects**, and I am passionate about applying my technical knowledge to solve practical problems.

I am a **dedicated, detail-oriented, and fast-learning** student, eager to expand my expertise and contribute positively to the field of technology.

Education

Level 5 – Computer Systems & Architecture
ESPANYA TSS, Rwanda
(Expected Graduation: 2028)

Work Samples

- **GitHub Portfolio:** github.com/cynthiauwineza135
Projects include coding exercises, Python scripts, C programs, and web development experiments.

- **Visual Studio Projects:**
Practical projects in C and Python, including debugging, algorithm design, and system-based applications.

Opportunity I Seek

■ Internship & Job Opportunities in Software Development and Embedded Systems
■ Scholarships & Academic Programs to advance knowledge
■ Networking & Collaboration with Technology Professionals
■ Projects that challenge my problem-solving skills and foster growth
